

SAKSHAM PANGOTRA

PHP Developer | Laravel | WordPress | WooCommerce | Full-Stack Web Developer

Punjab, India | +91 7837155180 | pangotra2003@gmail.com | sakshampangotra.com

PROFESSIONAL SUMMARY

Results-driven PHP Developer with 2+ years of hands-on experience building, customizing, and optimizing scalable web applications using PHP, Laravel, WordPress, WooCommerce, CodeIgniter, MySQL, and MongoDB. Proven track record of delivering 25+ production websites, custom plugins, enterprise management systems, and third-party API / payment integrations.

WORK EXPERIENCE

PHP Developer ? KbizSoft Solutions (June 2025 - September 2026)

- Developed 25+ websites using PHP, Laravel, WordPress, WooCommerce, and Shopify.
- Built Case Management, Learning Management (LMS), and Skills Management systems.
- Engineered custom WooCommerce print-on-demand plugin with interactive Fabric.js canvas.
- Improved Google PageSpeed scores from below 50 to as high as 90+ across client sites.
- Managed Linux/VPS servers, cPanel, Apache, Nginx, SSL, DNS, cron jobs, and backups.
- Integrated REST APIs, Make.com workflows, CRM (Pipedrive, Mintsoft), Stripe & PayPal.

PHP / Laravel Developer Trainee ? Developer Training (March 2024 - April 2025)

- Intensive practical training in Core PHP, Laravel, Object-Oriented Programming (OOP), and MySQL.
- Developed production-ready features and RESTful modules for live web applications.
- Built strong foundation in MVC architecture, authentication, eloquent ORM, and Blade templates.

KEY PROJECTS

1. Print-on-Demand WooCommerce Platform (PHP, WordPress, WooCommerce, JS, Fabric.js)

Custom WooCommerce plugin with interactive browser-based product customization editor.

2. Case Management System (PHP, WordPress, TCPDF, REST APIs)

Custom case tracking portal with client dashboards, document uploads, and automated TCPDF generation.

3. Learning Management System - LMS (PHP, Laravel, MySQL, Bootstrap, Stripe)

Laravel LMS featuring subject management, interactive quizzes, student portals, and Stripe checkout.

4. Skills Management System (MongoDB, Express.js, Angular, Node.js)

Full-stack MEAN application for organization hierarchy, employee skill matrices, and reporting.
